

Industrial Multi-Purpose Technical Process Wipes in a Dispensing Box - GRB200

A new generation technical wipe manufactured using a spun-lace, multi-layer composition to provide high liquid absorbency (up to 7 times its own weight). These wipes are soft on both sides and have re-usable properties making them a genuine alternative to rental rags in terms of cost and ensuring consistency every time.

Supplied in a handy pop-up dispensing box, apart from being perfect for general wiping and cleaning tasks the soft nature of this product also makes it ideal for polishing and delicate wiping tasks too.

Sold as a single box.
