

## laser distance measuring instrument

Up to 30 metres

**ATORN**

### Application

For a fast and contact-free distance measurement

### Version

- Lengths 0.05 to 30 metres
- Backlight
- Auto shut-off feature
- Slightly brushed side surfaces
- High-gloss display, black
- IP54
- mm/inch
- M6 tripod thread
- With signal tone

### Advantage

- Rubberised corner surfaces to prevent slipping on a smooth surface during the measurement process
- Buttons in the display, therefore no wear or tear of push buttons.
- Intuitive operation with one-button design
- Continuous measuring function (continuous measurement) is used for the transfer of measurements from e.g. building plans
- Fast, handy, intuitive.
